

Curriculum Vitae

Last Name: Polychronidou
First Name Persefoni
Father's Name: Konstantinos
Affiliation Professor
Telephone: 0030-23210-49206
e-mail: polychr@ihu.gr

Positions

Head of the Economics Sciences Department, International Hellenic University
Director of the Economic-Financial Studies and Research Laboratory
Director of the MSc in Applied Economics and Contemporary Management
Co-editor of International Journal of Business and Economic Sciences Applied Research

Studies

PhD on Informatics, Aristotle University of Thessaloniki, Greece.
MA in Banking, Accounting and Finance, Hellenic Open University and University of Nicosia.
Bachelor on Mathematics, University of Patra, Greece, 2001.

Professional experience (Research projects)

Participation in several projects since 2003 both European and National (details in the Greek version of the CV).

January – March 2026	Participation in the research project titled “Non-Gaussian self similar processes: Enhancing mathematical tools and financial models for capturing complex market dynamics” financed by the Bucharest University of Economic Studies, Romania. Specific Responsibilities: research group member.
June 2023 – June 2025	Participation in the research project titled “Effect of

	<p>demographic characteristics on economics in selected European countries” financed by the University of Rijeka, Croatia.</p> <p>Specific Responsibilities: Coordination of research on the use of e-government services in Greece; literature review; development of questionnaires; coordination of research on labor mobility and workforce capacity in Greece; adaptation of questionnaires for the Greek context; implementation of field research; data organization for analysis; execution of statistical and econometric analysis; data processing; and preparation of research papers.</p>
October 2021 – September 2023	<p>Participation in the research project titled “Financing higher education and effect of moral hazard” financed by the University of Rijeka, Croatia.</p> <p>Specific Responsibilities: Development of the research questionnaire, implementation of the field research, data analysis, and preparation of the research findings.</p>
March 2014 – June 2014	<p>Participation in the research project titled «TOIIEKO (Local Social Inclusion Actions for Vulnerable Groups)».</p>
March 2012 – October 2015	<p>Participation in the research project “Migrants and Health Services – The Case of the Region of Eastern Macedonia and Thrace.”</p> <p>Specific Responsibilities: Data collection, processing, and analysis.</p>
April 2010 – December 2010	<p>Participation in the research project titled “Migrants and the Local Economy/Society – Fifteen Years Later.”</p> <p>Specific Responsibilities: Extraction and evaluation of empirical research findings.</p>
January 2005- June 2007	<p>Research project within the framework of the “Pythagoras II” Program titled “<i>Mathematical Bioinformatics Applications.</i>”</p> <p>Specific Responsibilities: Development of algorithms and construction of discrete transformations.</p>

September 2006- December 2006	Research project within the framework of the “Joint Research and Technological Programs 2004–2006” titled “Study of Biodata Using Multiresolution Analysis Methods: Polynomial and Wavelet Analysis with Applications in Immunocomputing and Brain Function Analysis.” Specific Responsibilities: Development of algorithms.
January 2003- June 2003	Research project within the framework of a European Union Research Program titled “Non-Local Structures at the Nanoscale.” Specific Responsibilities: Development of software for mathematical models and construction of wavelet-type discrete transformations.
January 2003- November 2003	Research project within the framework of a European Union Research Program titled “Invulnerable Computers.” Specific Responsibilities: Development of software for mathematical models and construction of wavelet-type discrete transformations.

Teaching courses

Mathematics for Economists – winter semester

Statistics I – winter semester

Statistics II – spring semester

Operational research – winter semester

Econometrics – spring semester

Applied Econometrics – spring semester

Quantitative Methods in Finance – first semester of the department’s master program
“Financial Management”

Data Science in Economics – second semester of the department’s master program
“Financial Management”

Quantitative Analysis and Data Science – first semester of the department’s master program “Applied Economics and Contemporary Management”

Teaching experience in several departments since 2003 (details in the Greek version of the CV).

Member of scientific committees of journals
